

The Week 5 Software Engineering Project B weekly meeting will be held in **Room 4.36 (Ingkarni Wardli)** at **11:30am on Thursday 24th Aug 2017**

Agenda

Chair: Zeqi Fu

1 Apologies

- None

2 Present

- Zeyu Lin
- Zeqi Fu
- Minhtam Phan
- Christoph Treude
- Nickolas Falkner
- Marian Mihailescu

3 Show the process of the project

1. Show the current chart we have done
2. Show the structure of the website

4 Question about the project

1. Is it possible deploy manually?
2. Any other common about the website and charts?
3. What kind of question you expect to see in the cross-data chats?
(Web-submission data and forum data)
4. Is there any other way to find interest point by view the charts? Or I mean what kind of data you may like to see, you may have mentioned before, but just double check that that is the most function you want.

5 Question about the course

1. Zeqi Fu comment that he got all F in his individual process, actually he is helping with build up with service end. In previous time only Zeyu Lin working on charts, and Tam working on database. So, he confused about the process?
2. Can we add some issue during the Spring or we need add in advance?

The Week 5 Software Engineering Project B weekly meeting will be held in **Room 4.36 (Ingkarni Wardli)** at **11:30am on Thursday 24th Aug 2017**
