4 Decisions that were made and issues clarified

- Have a focus group to talk about some questions to include in the context of questionnaire.
- After lecturers login, they can choose course they teach and all charts will be automatically updated to that course.
- Allow users to select semester.
- Have two links to 2 tables for detailed student information and align them together.

- Put a label on order and "from, to".

- Be consistent with the unit of y-label and threshold function, make it adaptive.

- When visualizing Websubmission data, we need to focus on 2 aspects: mark and time.

- Provide charts about one course across different years and semesters.
